1 ABSTRACT

ABSTRACT

In the dynamic landscape of modern finance, traditional assets like gold are meeting the innovative realms of Web3 and cryptocurrencies. This intersection creates a fascinating space where age-old stores of value collide with cutting-edge technologies. Let's delve into the roles of gold, Web3, and cryptocurrencies and how they are shaping the future of finance.

Gold - A Timeless Asset

Gold has stood the test of time as a reliable store of value. Its scarcity, durability, and universal acceptance have made it a sought-after asset for centuries. Investors often turn to gold as a hedge against economic uncertainty and inflation. In the digital age, gold continues to play a pivotal role in diversified portfolios.

Web3 - The Next Evolution

Web3 represents the next phase of the internet, characterized by decentralized protocols, blockchain technology, and increased user control over data. Unlike its predecessor, Web2, which relies heavily on central entities, Web3 emphasizes decentralization, transparency, and user empowerment. This shift aligns with the ethos of cryptocurrencies.

Cryptocurrencies - Digital Financial Instruments

Cryptocurrencies, such as Bitcoin and Ethereum, have emerged as disruptive forces in the financial realm. Built on blockchain technology, they offer decentralized and secure alternatives to traditional currencies. Bitcoin, often referred to as "digital gold," shares similarities with the precious metal in terms of scarcity and being a store of value. Ethereum, on the other hand, serves as a platform for decentralized applications and smart contracts, contributing to the broader Web3 ecosystem.

Gold and Crypto Convergence

Some initiatives aim to bridge the gap between the physical and digital worlds of finance. For example, tokenized gold represents a digital ownership stake in physical gold, providing a seamless way for investors to access both worlds. The convergence of gold and cryptocurrencies opens up new possibilities for portfolio diversification and risk management.

Challenges and Opportunities

While each of these assets brings its unique strengths, challenges also exist. Regulatory uncertainties, market volatility, and technological hurdles are factors that both the traditional gold market and the crypto space grapple with. However, the opportunities for collaboration and innovation are vast, presenting a space where the best of both worlds can be harnessed.

2 INTRODUCTION

INTRODUCTION

Persada Asia is a precious metals-focused royalty and streaming company offering creative financing solutions to the metals and mining industry. Our mission is to acquire royalties, streams and similar interests at varying stages of the mine life cycle to build a balanced portfolio offering near, medium and longer-term attractive returns for our investors.

Cryptocurrency trading involves speculating on price movements via a CFD trading account, or buying and selling the underlying coins via an exchange. With our experience professional trader in house we manage to consistently generating profit thru this challenge environment.

3 ABOUT RESMI GOLD

ABOUT

Resmi Gold is a crypto web3 feature develop by Persada Asia for investing in gold mining business. Invest with ease, hedge against market instability, and gain full control over your financial future.

Great Profit For Your Portfolio

- Marketing Strategy Development
- Legal & Business Consulting
- Smartcontract development
- Presale
- Audit by Certik
- Audit by CyberScope

Q2 2024

- DEX Liquidity
- CEX Apply Listing
- Massive Marketing
- Launching Mobile Platform

Q3 2024

- Mining Real World Asset (GOLD)
- Extra Development Web3 Feature
- Whitepaper Update
- Roadmap Update

6 PARTNERSHIP

PARTNERSHIP

Resmi Gold is very proud to announce partnership with :

1. RESMI (RESPONSIBLE MINING)

The Responsible Mining Foundation has been tracking gender action by mining companies since 2017 and the latest results are just in. The findings again show striking contrasts in what companies choose to focus on – gender balance in headquarter teams is quite widely addressed while gender in affected communities is largely ignored.

2. APRI (ASOSIASI PENAMBANG RAKYAT INDONESIA)

The Indonesian People's Miners Association or abbreviated as APRI is an institution that prioritizes active mining as the spearhead of its movement with small-scale miners as its priority.

3. MORE PARTNERSHIP WILL ANNOUNCE

Keep in touch for more update
